(PRIOR ART)

FIG. 2

FIG.3

FIG. 4

This cross-sectional view shows the device along the Y-axis. It features a central core 112 surrounded by a cladding 114. A protective layer 116 is on the outer surface. A central rod 125 is positioned within the core. A sleeve 220 is mounted on the core, with a flange 223 at its end. A bracket 230 is attached to the flange, containing a component 131. A layer 170 is located between the bracket and the flange. A component 250 is shown with sub-components 251 and 253. The Y-axis is indicated by an arrow pointing to the right.
